CAR CLINIC CELEBRATES FIRST ANNIVERSARY

First Year Results in Exponential Growth and Community Partnerships in Loudoun

STERLING, VA – NOVEMBER 1, 2016 – The Car Clinic proudly celebrates its first anniversary at their new location in Sterling, VA. This is a major milestone, not just for the Car Clinic team, but also for the friends, patrons, clients and well-wishers of this customer service focused business.

“We couldn’t be happier with how well-received we’ve been by the Loudoun community. Our business is thriving in our new location, we’ve made great partnerships with businesses in 2016, and we’re looking for additional businesses to partner with in 2017... Customer Service is our top priority when attending to our customers. We know there are a lot of options available when seeking assistance with your vehicle repairs and general services, which is why we go above and beyond to make sure our customers are 100% satisfied,” says, Pushpdeep “Pushp” Singh, General Manager, Car Clinic.

The **“one stop shop for everything cars,”** was a concept decided upon when new management acquired Car Clinic in January 2015. Launch of Seva Cars – preowned dealership – in April 2016 completed the vision and provided the opportunity for the team to be involved in every part of the car ecosystem! The Car Clinic team looks forward to serving the community and being part of every household. If you have a car, then the Car Clinic would like to hear from you!

###

CAR CLINIC

Car Clinic has served Loudoun County for over eight years with new management acquiring the business in January 2015. To take advantage of and to improve customer service, new management decided to bring all services under one roof. Building appropriate infrastructure along with the right technology became management’s focus for Car Clinic’s growth. The move into 23551 Pebble Run Place, Sterling, VA, has a full-scale service center along with a collision center. They now have the capacity to work on wide array of opportunities, ranging from fender benders to full accidental repair and bodywork. In case of a collision, they take a customer’s entire insurance headache away and manage the entire process from beginning to end. A customer can even pick-up and drop-off their rental car. www.carclinicva.com
